

ENHANCES SURVIVABILITY

## We protect those who protect us

BAE SYSTEMS is an acknowledged leader in electronic warfare, having produced more aircraft self-protection systems than any other company. We enhance battlefield helicopter survivability by improving situational awareness and by automatically detecting and countering threats to the platform.

Aircrew look to BAE SYSTEMS for the very best countermeasures for fixed and rotary-wing aircraft. And for future aircrews, our heritage of success continues with our next-generation countermeasures systems.

All this comes from the systems company innovating for a safer world.
