

TURN NIGHT INTO DAY

Our LTC550 Infrared Camera makes light work of 24 hour surveillance.

Now there is a cost-effective, maintenance-free solution for enhancing your day and night situational awareness: the LTC550 Infrared Camera from BAE SYSTEMS, a 50-year leader in technologies that safeguard our world.

This state-of-the-art, environmentally qualified IR camera uses BAE SYSTEMS' exclusive, uncooled, MicroIR™ technology to provide high-resolution thermal imagery to meet surveillance, access monitoring, force protection and drug interdiction application requirements 24/7, without the need for artificial illumination. Highly compact, its modular design – including interchangeable optics – allows it to be easily integrated with existing surveillance systems and upgraded to meet future security requirements.

The LTC550 Infrared Camera: the ideal day and night surveillance solution whenever and wherever you need it.

All this from the systems company innovating for a safer world.
