

THE MISSION CONTINUES

We protect those who protect us.

BAE SYSTEMS is an acknowledged leader in defense electronics. Both U.S. and allied aviators look to BAE SYSTEMS for the very best electronic countermeasures for fixed and rotary-wing aircraft. We've produced more self-protection systems for military aircraft than any other company.

For future aircrews, our heritage of success continues, too, with next-generation countermeasures systems including: EW suites for the F-22 Raptor and the Joint Strike Fighter; IDECM RFCM; Advanced Threat IR Countermeasures (ATIRCM); and the Common Missile Warning System.

Unrivaled capability from a truly global systems, defense and aerospace company.
