

COMING HOME

## We protect those who protect us.

BAE SYSTEMS has produced more Electronic Warfare self-protection systems for military aircraft than any other company.

For future aircrews, our heritage of success continues with the Electronic Warfare countermeasure suites for the F-22 Raptor and the F-35 Joint Strike Fighter. Other next-generation systems in production or development include IDECM RFCM for the Navy and Air Force, ATIRCM for helicopters, the Common Missile Warning System, and additional advanced programs for U.S. and allied tactical fighters. So our pilots can accomplish their missions – and come safely home.

Unrivaled capability from a truly global systems, defense and aerospace company.
