

# Inspiration

is everywhere.

Inspired people work for BAE SYSTEMS. Their innovation is our competitive edge. And to keep it that way, we make important contributions to the communities in which we live and work, investing in new technology, education and skills training. It's the best way to preserve our natural intellectual resources — and inspire innovative solutions for years to come.

We are a global leader in systems, defense and aerospace because we believe in challenging ourselves, never resting on the status quo. The unique talents, knowledge and experience of every one of our employees contribute to new thinking and new applications of technology.

BAE SYSTEMS North America now employs a diverse workforce of more than 22,000 people across 30 states. We're looking for others who are ready for the challenge, and more importantly, continue to find inspiration everywhere. EOE, M/F/D/V. BAE SYSTEMS: Innovating for a Safer World.
