## **BAE SYSTEMS NAMES DENNIS DELLINGER PRESIDENT OF MOBILITY & PROTECTION SYSTEMS**

HOUSTON — Dennis M. Dellinger has been named President of BAE Systems' Mobility & Protection Systems, a newly created line of business resulting from the completed acquisition of Armor Holdings, Inc. earlier this month.

As President of Mobility & Protection Systems, Dellinger will be responsible for approximately 5,400 employees engaged in the production of trucks, individual warfighter protection gear, armor components for vehicles, and integrated seats and restraints. Recently BAE Systems' Mobility & Protection Systems was awarded a \$518.5 million prime contract to deliver 1,170 Mine Resistant Ambush Protected vehicles.

"We are very pleased to have Denny leading the Mobility & Protection Systems portion of our business," said Linda Hudson, BAE Systems President of Land & Armaments. "The continuity and customer focus that Denny and his team provides will be key to our determination to deliver the best equipment possible on budget and schedule to our Armed Forces."

"We are excited to become a part of BAE Systems," said Dellinger. "At the end of the day, our business is about supporting the warfighter. It is our shared belief that we protect those who protect us, and it is this common goal that has motivated our team to deliver the best products in the world."

Dellinger previously served as the Chief Operating Officer for the Armor Holdings Aerospace & Defense Group and as President of Stewart & Stevenson Tactical Vehicle Systems. In his new role as President of Mobility & Protection Systems, he will continue to focus his efforts on strengthening core customer relationships and growing future business opportunities. Dellinger holds an undergraduate degree in mechanical engineering and a master's degree in engineering from the University of Detroit and has pursued post-graduate studies at Purdue University in industrial engineering.

### **About BAE Systems**

BAE Systems is the premier global defense and aerospace company delivering a full range of products and services for air, land and naval forces, as well as advanced electronics, information technology solutions and customer support services. BAE Systems, with 96,000 employees worldwide, had 2006 sales that exceeded \$27 billion on a pro forma basis, assuming BAE Systems had owned Armor Holdings, Inc. for the whole of 2006.
